

# How You Function and You Know It

(Can be sung to the tune "If You're Happy and You Know It")

By: Lindsay Elizabeth Marshall  
BBB Graduate Assistant and Trainer

## **Slide 9B**

If you're thinking, planning, judging...frontal lobe  
If you're thinking, planning, judging...frontal lobe  
Creativity, reasoning too, or problem-solving that you do  
If you're thinking, planning judging...frontal lobe

## **Slide 9C**

To process, talk, and hear...temporal lobe  
To process, talk, and hear...temporal lobe  
It's right above your ear, no wonder you can hear  
To process, talk, and hear...temporal lobe

## **Slide 9E**

For processing what you see...occipital lobe  
For processing what you see...occipital lobe  
It's on the back of your head, but it helps you see instead  
For processing what you see...occipital lobe

## **Slide 9D**

And the other three senses...parietal lobe  
And the other three senses...parietal lobe  
You've got touch, taste, odor, but not in that order  
And the other three senses parietal lobe

## **Slide 9Z**

Now let's put them all together...that's the brain  
Now let's put them all together...that's the brain  
Frontal, occipital...Temporal, parietal  
Now let's put them all together...that's the brain
